# MURABAHA

## Recording & Monitoring

*Product Development & Shariah Compliance*

# Outline

- **Murabaha Recording**
  - Account Heads & Their Treatment
- **Murabaha Checking & Monitoring**
  - Murabaha Monitoring Sheet

# Murabaha Recording

- Under IFAS 1 – Murabaha

**Basic Difference** in recording the transactions are

- ✓ At the time of payment to the client for the purchase of the goods on behalf of the bank, the payment will be booked in the account head named **Advance against Murabaha A/c**.
- ✓ At the Culmination of Murabaha i.e. at the time of sale of goods to the customers with signing of Declaration by the bank and the client the **Advance against Murabaha A/c** will be adjusted with the **Murabaha Financing A/c**.

# Murabaha Recording

- ✓ **Booking of Accruals would ONLY be made when:**
  - **Declaration has been signed and the Murabaha Financing has been booked.**

# Murabaha Recording

# Murabaha Checking & Monitoring

- Murabaha Monitoring Sheet

# Murabaha Checking & Monitoring

## Purpose:

The purpose of implementing Murabaha-Monitoring Mechanism (MMM) is:

- To improve the quality of Murabaha transactions,
- To reduce the gap between disbursement and purchase evidence,
- To avoid delays in declaration and to streamline Murabaha transactions in Commercial Banking, Corporate and at all branch level.

## Murabaha Checking & Monitoring

- Murabaha Monitoring Sheet (MMS) will be prepared by the Credit Administration Department (CAD) for each branch manually or through system (which ever is available), as per the format given.
- The MMS will **separately** be prepared for all Corporate & SME/Commercial dept Murabaha transactions.
- This will be a self-monitoring sheet and will be used by the Corporate / SME Incharge of the branch and Head Office to ensure proper execution of Murabaha transactions.
- The prime responsibility of implementing this mechanism lies with each Branch Manager / CAD Manager.
