Introduction

Halal Research Council is an organization working globally on Halal certifications in order to cater the needs of food and nutrition agencies and side by side non-food agencies especially in the FMCG sectors.

HRC certifies the products under the reverent coordination of recognized Shariah Supervisory Board, Highly qualified Food Technologists, Chemical Engineers and R&D professionals in respect of eligibility for Certification through research based methodology scrutinizing the sources of ingredients, examining the entire supply chain, chemical examination and analyzing Shariah prospects of ingredients used in the products.

As the awareness of Food and Nutrition is rising in the masses so ultimately there is a developing need of such certifications. Halal Research Council is honored to serve Halal foods and non-food market all over the world. The ingredients used in preparation of the products are usually mentioned clearly on the wrappers/packaging but often their sources are not mentioned with them. As it is legally required and being the first right of the customers, they should be aware of the items and materials used in the process.

Our Internship Program

Halal Research Council introduced virtual internship program for the students back in 2020 keeping in mind the innumerable students and professionals who were unable to find plausible solutions to their work experience and internship problems.

Candidates are undertaking this opportunity globally. Interns will secure the opportunity to learn latest trends and opportunities in Halal industry. The internship program consists of two months duration. This internship program will contribute to enhance the practical knowledge of the participants through learning from professionals, learning, Trainings, and Webinars. Furthermore, interns may interact with each other to avail the opportunities from the Halal industry globally as well.

Activities & Deliverables

HRC welcomes Virtual Interns where they will have a chance to develop their understanding in the Halal industry. This will not only enhance their knowledge base and expertise but also provide the chance to secure their position in the market. During the internship program the candidates will perform several duties including academic/research and general article writing, development of industry linkages, Presentations on assigned topics or topics of interest, data collection & communication, arranging

free seminars in educational institutes, forums, associations, religious organizations, establishing strategic partnership linkages, promotion of Distance Learning Program (DLPs) and HRC Services and visits to the industry. This program will not only strengthen the students' knowledge but will also contribute for Islamic finance industry all over the world for sustainable economic growth.

Eligibility Criteria

Undergraduates and Graduates from Food Science, Social Science, Veterinary Science, Biology, botany, and related field can join.
